I am Busisiwe Mgangxela,(Mrs Peter), an Agroecology farmer farming GMO free piggery, varieties of vegetables, grains, herbs and medicinal plants in Cambridge East London Eastern Cape at Hill view farm. I was a Nurse educator at the then Transkei College of Nursing. It is there that I saw a need to venture into farming that looks at ecology not separating our environment, human and animal kingdom as each exists with other. Having to teach Nursing students about prevention being better than cure and Good, quality, clean nutrition being at the centre for that prevention, I decided to follow what both my paternal, maternal grandparents and mother (also a nurse then) were doing that is farming using natural ways with crops and livestock. I have 2 grown up kids that are working. I hope the above is sufficient for the purpose of the website.

Regards

Busisiwe Mgangxela
